Dear, Grantgenies

Randy we are writing to thank you for all of your assistance with our AFG grant. We have never applied for an AFG grant before, when we received your flyer in the mail we were considering applying for this grant however we had no idea where to start. We looked at several grant writing services, we liked the idea of a smaller service with personal care. When we contacted you we felt very comfortable that our application would be handled properly. Once we started working with your service we realized that we had made the right choice. You took a very professional and helpful position guiding us through the entire process. We felt you had a genuine concern with our plight. We had no idea that the application was so intense. Without your expertise we would never have gotten through this. When the application was completed the finished application was more than we ever expected. Not to mention the support letters. The most amazing thing was that in this day and age we could call someone and they would answer and handle our questions. I myself even called you on your vacation and you assisted me with my questions, no one does that. I spent many hours on the phone with you for over 6 months, every call was like talking to a friend. We look forward to meeting you in person and again thank you for everything.
